• Progress

- Orchard Maintenance ongoing.

Mowing has restarted amongst the trees.

- Bird, Bat and bee boxes installed on the community council building.

- Wildflowers areas from Project 14 Have been rotovated and seeded.

An area the size of one and a half tennis courts have been converted.

All sites have been seeded, now we hope for the correct weather conditions for everything to take.

Only site I'm concerned about is the patch along the community center on Llwyn Onn, Lots of moss within the ground.

- Engagement

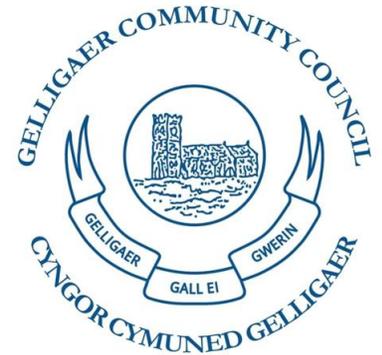

Lots of chatting to residents whilst completing the wildflower areas. Very positive feedback.

- Penybryn

Tree planting booked in for Thursday 17th April 10am Penybryn Community Centre

Whilst prepping a seed area in Penybryn a resident I was chatting to mentioned this year will mark the villages 100th anniversary. If this is the case, Would council like me to prepare anything for the occasion, eg bench special tree or planters?

Progress

• Picture Update

As of January 2025 Keep Wales Tidy as a whole no longer uses X (Previously Twitter)

The Caerphilly Keep Wales Tidy Facebook page has been shut down whilst we move to a new regional model.

Bird, Bat and Bug boxes installed on the community council office

Wildflower preparations , this particular spot is the roundabout in Ystrad Mynach by Tesco

Germinated seeds 28/3
Glan Y Nant Park
